

Session 2020-21

Classes I and II

Stay positive, work hard and we will make it happen.

Dear Parents,

We know that the best educational outcomes occur when Parents and teachers work together as allies to facilitate the finest learning experience possible for students. Good two-way communication between families and school is the main key to this partnership. Keeping this in mind and to make it happen more effectively we invite you to attend an online **Open House session on 1st May 2020, Friday.**

To make the open house more systematic and comfortable for all the parents the class teacher will provide each parent with the time slot of 10 minutes, during which you can join the zoom meeting room of the teacher and the next parent will be in the waiting room. After the completion of 10 minutes the teacher will allow the next parent to enter the meeting room.
